COC NOMINATION DEADLINE

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to farmers and ranchers. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture (USDA).

County committee members are a critical component of the operations of FSA. They help deliver FSA farm programs at the local level. Farmers and ranchers who serve on county committees help with the decisions necessary to administer the programs in their counties. They work to ensure FSA agricultural programs serve the needs of local producers.

FSA county committees operate within official regulations designed to carry out federal laws. County committee members apply their judgment and knowledge to make local decisions.

The COC nomination period runs from June 17, 2014 through August 1,

2014. The nomination form is available at USDA Service Centers and [online](#). For more information contact your local FSA office.

USDA'S FARM SERVICE AGENCY (FSA) OFFERS FARM BILL WEBSITE AND ONLINE OVERVIEW OF FARM BILL PROGRAMS

The Agricultural Act of 2014 (the Act), also known as the 2014 Farm Bill, was signed by President Obama on Feb. 7, 2014. The Act repeals certain programs, continues some programs with modifications, and authorizes several new programs administered by the Farm Service Agency (FSA). Most of these programs are authorized and funded through 2018.

For the latest on 2014 Farm Bill programs administered by FSA, please visit our Farm Bill website at www.fsa.usda.gov/farmbill and for an FSA program overview please read, download and/or print our recently posted FSA Farm Bill Fact Sheet titled, [What's in the 2014 Farm Bill for Farm Service Agency Customers?](#)

For more information on FSA, please contact your local USDA Service Center or visit us online at www.fsa.usda.gov.

DAIRY INDEMNITY PAYMENT PROGRAM

The 2014 Farm Bill authorized the extension of the Dairy Indemnity Payment Program (DIPP) through September 30, 2018. DIPP provides payments to dairy producers and manufacturers of dairy products when they are directed to remove their raw milk or products from the market because of contamination.

2012 & 2013 ELAP LOSSES MUST BE FILED BY AUG. 1, 2014 FOR HONEYBEE, LIVESTOCK AND FARM-RAISED FISH LOSSES

Producers who suffered eligible livestock, honeybee or farm-raised fish losses have until August 1, 2014, to submit a notice of loss and application for payment under the Emergency Assistance for Livestock, Honeybees and Farm-raised Fish Program (ELAP).

ELAP provides emergency assistance to eligible producers of livestock, honeybees and farm-raised fish that have losses due to disease, adverse weather, or other conditions, such as blizzards and wildfires. ELAP assistance is provided for losses not covered by the Livestock Forage Program (LFP) and Livestock Indemnity Program (LIP). Producers who suffered eligible livestock, honeybee or farm-raised fish losses during 2012 and 2013 program years must submit a notice of loss and application for payment to their local FSA office by August 1, 2014. For 2014 program year losses, the notice of loss and an application for payment must be submitted by November 1, 2014.

For more information, producers can review the ELAP Fact Sheet on the [Farm Bill webpage](#). Producers are

encouraged to make an appointment with their local FSA office to apply for these programs.

USDA FARM SERVICE AGENCY ANNOUNCES TREE ASSISTANCE PROGRAM (TAP) SIGN-UP

As of Tuesday, April 15, 2014, orchardists and nursery tree growers who experienced losses from natural disasters that occurred on or after Oct. 1, 2011, can sign up for the Tree Assistance Program (TAP). TAP was authorized by the Agricultural Act of 2014 as a permanent disaster program. TAP provides financial assistance to qualifying orchardists and nursery tree growers to replant or rehabilitate eligible trees, bushes and vines damaged by natural disasters.

Eligible tree types include trees, bushes or vines that produce an annual crop for commercial purposes. Nursery trees include ornamental, fruit, nut and Christmas trees that are produced for commercial sale. Trees used for pulp or timber are ineligible.

To qualify for TAP, orchardists must suffer a qualifying tree, bush or vine loss in excess of 15 percent mortality from an eligible natural disaster. The eligible trees, bushes or vines must have been owned when the natural disaster occurred; however, eligible growers are not required to own the land on which the eligible trees, bushes and vines were planted.

If the TAP application is approved, the eligible trees, bushes and vines must be replaced within 12 months from the date the application is approved. The cumulative total quantity of acres planted to trees, bushes or vines, for which a producer can receive TAP payments, cannot exceed 500 acres annually.

USDA ANNOUNCES NEW SUPPORT FOR BEGINNING FARMERS AND RANCHERS

Department Implementing New Farm Bill Programs, Unveiling New Centralized Online Resource to Support Next Generation of Farmers

USDA has announced the implementation of new Farm Bill measures and other policy changes to improve the financial security of new and beginning farmers and ranchers. USDA also unveiled www.USDA.gov/newfarmers, a new website that will provide a centralized, one-stop resource where beginning farmers and ranchers can explore the variety of USDA initiatives designed to help them succeed.

USDA's www.usda.gov/newfarmers has in depth information for new farmers and ranchers, including: how to increase access to land and capital; build new market opportunities; participate in conservation opportunities; select and use the right risk management tools; and access USDA education, and technical support programs. These issues have been identified as top priorities by new farmers. The website will also feature instructive case studies about beginning farmers who have successfully utilized USDA resources to start or expand their business operations.

Today's policy announcements in support of beginning farmers and ranchers include:

- Waiving service fees for new and beginning farmers or ranchers to enroll in the Non-Insured Crop Disaster Assistance Program (NAP) for the 2014 crop year. NAP provides risk management tools to farmers who grow crops for which there is no crop insurance product. Under this waiver, announced via an [official notice](#) to Farm Service Agency offices, farmers and ranchers whom already enrolled in NAP for the 2014 crop year and certified to being a beginning farmer or social disadvantaged farmer are eligible for a service fee refund.
- Eliminating payment reductions under the [Conservation Reserve Program](#) (CRP) for new and beginning farmers which will allow routine, prescribed, and emergency grazing outside the primary nesting season on enrolled land consistent with approved conservation plans. Previously, farmers and ranchers grazing on CRP

land were subject to a reduction in CRP payments of up to 25 percent. Waiving these reductions for new and beginning farmers will provide extra financial support during times of emergency like drought and other natural disasters.

- Increasing payment rates to beginning farmers and ranchers under Emergency Assistance for [Livestock, Honeybees and Farm-Raised Fish Program \(ELAP\)](#). Under this provision, beginning and farmers can claim up to 90 percent of losses for lost livestock, such as bees, under ELAP. This is a fifty percent increase over previously available payment amounts to new and beginning farmers.

In the near future, USDA will also announce additional crop insurance program changes for beginning farmers and ranchers – including discounted premiums, waiver of administrative fees, and other benefits.

Additional information about USDA actions in support of beginning farmers and ranchers is available [here](#).

LIVESTOCK DISASTER ASSISTANCE SIGN-UP UNDERWAY

Livestock disaster program enrollment opened on April 15, 2014. These disaster programs are authorized by the 2014 Farm Bill as permanent programs and provide retroactive authority to cover losses that occurred on or after Oct. 1, 2011.

To expedite applications, all producers who experienced losses are encouraged to bring records documenting those losses to their local FSA Office. Producers should record all pertinent information of natural disaster consequences, including:

- Documentation of the number and kind of livestock that have died, supplemented if possible by photographs or video records of ownership and losses
- Dates of death supported by birth recordings or purchase receipts
- Costs of transporting livestock to safer grounds or to move animals to new pastures
- Feed purchases if supplies or grazing pastures are destroyed
- Crop records, including seed and fertilizer purchases, planting and production records

Eligible producers can sign-up for the following livestock disaster assistance programs:

Livestock Forage Disaster Program (LFP):

LFP provides compensation to eligible livestock producers that have suffered grazing losses due to drought on privately owned or cash leased land or fire on federally managed land. Eligible producers must physically be located in a county affected by a qualifying drought during the normal grazing period for the county. Producers who suffered eligible grazing losses should submit a completed CCC-853 and supporting documentation by January 30, 2015.

Livestock Indemnity Program (LIP):

LIP provides compensation to eligible livestock producers that have suffered livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. Producers who suffered livestock death losses should submit a notice of loss and an application for payment to their local FSA office by January 30, 2015.

Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP):

ELAP provides emergency assistance to eligible producers of livestock, honeybees and farm-raised fish that have losses due to disease, adverse weather, or other conditions, such as blizzards and wildfires. ELAP assistance is provided for losses not covered by LFP and LIP. Producers who suffered eligible livestock, honeybee or farm-raised fish losses during 2012 and 2013 program years must submit a notice of loss and application for payment to their local FSA office by August 1, 2014. For 2014 program year losses, the notice of

loss and an application for payment must be submitted by November 1, 2014.

For more information, producers can review the LFP, LIP and ELAP Fact Sheets on the [Farm Bill webpage](#). Producers are encouraged to make an appointment with their local FSA office to apply for these programs.

KNOW YOUR FARMER, KNOW YOUR FOOD

The *Know Your Farmer, Know Your Food* (KYF2) initiative is a USDA-wide effort focused on strengthening local and regional food systems.

In recent years, consumers have shown an increased interest in purchasing locally-produced foods and many farmers and ranchers followed the trend and offer fresh foods through local markets.

USDA followed suit, developing KYF2, which helps connect consumers with producers in their community. USDA offers a wide range of programs that can assist farmers, ranchers, businesses, communities and individuals. To learn more about grants, loans and support that is available, visit http://www.usda.gov/wps/portal/usda/usdahome?navid=KYF_GRANTS.

These USDA programs stimulate economic development in agricultural communities, foster new opportunities for farmers and ranchers, promote locally and regionally grown and processed foods, cultivate healthy eating habits and educated consumers, expand access to affordable fresh and local food and develop a connection between food, agriculture, community and the environment.

For more information on KYF2, visit <http://www.usda.gov/wps/portal/usda/knowyourfarmer?navid=KNOWYOURFARMER>

MICROLOAN PROGRAM

The Farm Service Agency (FSA) developed the Microloan (ML) program to better serve the unique financial operating needs of beginning, niche and small family farm operations.

FSA offers applicants a Microloan designed to help farmers with credit needs of \$35,000 or less. The loan features a streamlined application process built to fit the needs of new and smaller producers. This loan program will also be useful to specialty crop producers and operators of community supported agriculture (CSA).

Eligible applicants can apply for a maximum amount of \$35,000 to pay for initial start-up expenses such as hoop houses to extend the growing season, essential tools, irrigation and annual expenses such as seed, fertilizer, utilities, land rents, marketing, and distribution expenses. As financing needs increase, applicants can apply for a regular operating loan up to the maximum amount of \$300,000 or obtain financing from a commercial lender under FSA's Guaranteed Loan Program.

Individuals who are interested in applying for a microloan or would like to discuss other farm loan programs available should contact their local FSA office to set up an appointment with a loan official.

SELECTED INTEREST RATES FOR JULY 2014:

Farm Operating Loans (including microloans) - Direct 2.125%
Farm Ownership Loans - Direct 3.875%
Farm Ownership- Direct, Joint Financing - 2.50%
Farm Ownership Loans — Direct Down Payment, Beginning Farmer or Rancher - 1.50%
Emergency Loan - 3.125%
Farm Storage Facility Loans (7 years) - 2.125%

DATES TO REMEMBER:

July 22, 2014 - Office Closed - All Employee Training

July 22, 2014 - County Committee Meeting at 7 pm - USDA Conference Room 211 - Teleconference

August 1, 2014 - Deadline to file 2012 and 2013 ELAP losses (see article)

August 1, 2014 - Last day to file COC nomination forms at the local USDA Service Center

August 19, 2014 - County Committee Meeting at 7 pm - USDA Conference, Room 211

September 1, 2014 - Labor Day Federal Holiday
